

*Your support can make a difference!*

### He shall supply our needs

Since 1992, Kids Alive has been blessed to minister to at-risk children in Guatemala. As the COVID-19 pandemic has raced around the globe and left a wake of suffering, we have organized the Kids Alive Spring Campaign with a \$250,000 matching gift to meet the emergency needs of vulnerable children in our communities. Along with support for the current circumstances, there are yet other initiatives and programs that Kids Alive Guatemala will implement for the benefit of our children and families. Please considering joining us in this outreach!

### Food for the weary

With rising food costs and limited supplies, the families in our community in Zapote and members of our partner church are struggling to make ends meet. KA-G is seeking the following support for this meal program:

- \$5,775 to provide one month of dinners for the 35 families (175 people) in our Families Together Team
- \$8,250 to provide one month of dinners for 50 families (250 people) at Iglesia Galilea, our church partner

### Hope for the future

Our Casa Ester ministry provides a path towards independence for young ladies who have been exploited and abandoned. We have a team of therapists and coaches who offer counseling, continuing education, job training and placement, and spiritual discipleship for young women 18 and older who are not yet ready to live independently. To support this ministry, we are seeking the following:

- \$7,200 to sponsor one resident young lady for an entire year
- \$10,200 to sponsor the Casa Ester ministry for one month

### Justice for the oppressed

In Escuintla, we are fighting for victims' rights and walking girls through the daunting legal process of seeking justice against their abusers. This work requires the retention of a lawyer well-versed in Guatemalan law, and to sponsor our lawyer we are seeking \$31,310 for the following:

- \$21,060 for one year's salary
- \$7,370 for employee benefits
- \$2,880 for travel and other related expenses

***Please join us in offering healing to girls broken by abuse and hope to families ravaged by the global pandemic. Your gifts will provide nourishment for body, mind, and spirit!***
